## Users

#### New Person Wizard - filtering of Temp Desks

In order to avoid long lists Temp Desks are now filtered according to the Users' Division Access as set in Users – Division Access and also in File - Select Division.

This feature will require System Administrator set up.

#### Send Details - Modifiable Email subject

If set up to send details from Vacancy – Shortlist and Person – Progress the subject line can now be modified and defaults to Vacancy Details.

A template drop down menu has also been added allowing the use of templates when sending details.

In Person – Progress or Vacancy – Short List select a record and click Send Details.

9	Send Vacancy Details	_			×				
	Subject Vacancy Details								
	Message Text Contact	● SMS ○ Email	Template		•				
				SPANBLUE10 SPANCLOSE					
					•				
	Send Cancel								

If Agency Setup Branding is enabled and there is a brand called 'PROGRESSSENDDETAILS', the template descriptions will appear in the drop down list. If no Branding for PROGRESSSENDDETAILS not

set up, then the boilerplate 'contact event' descriptions will appear. If required 'PROGRESSSENDDETAILS' will require System Administrator set up.

If SMS is ticked the subject is ignored and does not count towards the character count

#### Broadbean candidate CV retrieval by ranking

Broadbean functionality has been extended in IQX to allow Users to retrieve CVs according to Broadbean's ranking. Users can retrieve CVs ranked Suitable, Unsuitable, Maybe Suitable, Unranked or All. This ranking uses the same naming convention as the Broadbean site.

Once a vacancy has been posted via a job board the Broadbean icon will have a red tick in it. Select this icon. In the next window select Candidates – Retrieve Candidates and select the ranking. Results which have been ranked by Broadbean will be displayed. The rank of each result is shown in the rank column.

See IQX for full details on setting up and using Broadbean.

#### New Candidate - Duplicate Check

When registering a new candidate IQX checks for and suggests possible duplicate candidates at the end of the first window and and once the New Person wizard is completed. It checks name (> 70%), date of birth, email and postcode. It is now possible to modify the duplicate candidate check to ignore duplicate postcodes which will result in more possible duplicates.

This will require System Administrator set up.

# iqx)

#### Web Referencing

Web Referencing has now been extended to allow Agency Setup Branding to be applied to emailed Reference Requests.

This functionality relies on set up by IQX staff in conjunction with System Administrators. An updated User Guide is available here.User Guide

### Accounts

#### New switchable VAT rates

It is now possible to add 5% and 10% VAT rates to the company form where the application of these rates are permitted by HMRC.

This feature will require System Administrator set up.

Once set up the additional rates can be seen in Company – Miscellaneous – VAT Status drop down menu.

Questionnaire	Credit Limit	
Notes	Days Credit	14
	Group Timesheets on Invoice	One invoice for each Timeshe
Extra Notes	Invoice Frequency	Weekly

#### **Deletion of Stored Selections and Searches**

Managers can now restrict stored selection and search deletion to the users' own stored selections and searches. If a User attempts to delete searches created by other users the following warning will appear.

IQX		×
You do no have permissio	on to delete ot	her users stored searches
	ОК	

Only Users with Manager rights will be able to delete any stored searches and selections via the Manager switch in Maintenance – Users Roles – General – Manager.
